## NEW NAME, MORE FEATURES

The App formerly known as “Call Advantage” has been renamed to A4R. A4R stands for “Advantage For Restaurants” and is more than just service. It is a revolutionary system designed to simplify **Planned Maintenance, monitor your equipment health and provide Service at your fingertips.**

If you already have the App installed, you will either receive a notification regarding the update or if you have enabled your device to install updates automatically it will update itself.

## UPDATES & IMPROVEMENTS

### PM APPROVAL TOOL

An interactive form replaces paper/pdf reports. Full transparency & control over part & labour costs to streamline budgeting - schedule your repairs to match your cashflow.

Planned Maintenance is executed at least 7X faster than with traditional methods. Technicians spend less time on paperwork (generating reports), more time spent on thorough inspections and repair of equipment.

Up to 18 check points to ensure a thorough inspection of every piece of equipment. Repairs are merged together to save on travel, truck charges & technician labour costs to make each trip as efficient as possible.

### ASSET DIAGNOSTICS

Receive real-time notifications of an increase in temperature beyond the defined limit to avoid significant food spoilage & losses.
